Results NFIA 2009-2018

Number of foreign investment projects per annum for 2009-2018

Number of direct jobs per annum for 2009-2018

Investment amounts in € million per annum for 2009-2018

The exceptionally high investment amount for 2009 can be accounted for by the realization of two capital-intensive investment projects:

- an investment of € 2 billion by the German energy company RWE in a coal-fired power station in Eemshaven, in the northern province of Groningen
- an investment of € 670 million by Neste Oil from Finland in a production facility for biodiesel in Rotterdam

The exceptionally high investment amount for 2014 can be accounted for by the realization of two capital-intensive investment projects:

- an investment of more than € 1.6 billion by Canadian company Northland Power in Gemini, the offshore wind park 85 kilometers north of the Groningen coast
- an investment of € 600 million by Google from the US in a new data center in Eemshaven, in the northern province of Groningen
